

APA STYLE, 7TH EDITION

General format of in-text citations is as follows: (last name of author, year of publication). You can also use the author's name in your sentence, immediately followed by the year of publication in parentheses. Examples of both types of in-text citations are provided throughout this handout.

Example: (Lowery & Burrow, 2019) *or* Lowery and Burrow (2019)

With direct quotations, add the page number after the year of publication (separated by a comma).

Important notes

- Each in-text citation must have a corresponding reference list entry.
- Place the section label **References** centered and in bold at the top of a new page.
- Arrange the reference list entries in alphabetical order by author.
- Reference list entries have a hanging indent of 0.5 in. (*i.e.* the first line is flush with the left margin; all subsequent lines are indented 0.5 in from the left margin).
- Double-space the reference list (within and between entries).
- If no publication date is provided, write n.d. (for “no date”) in place of the year.
- If a source has more than one author, use the examples provided under “Book” and then combine with the appropriate document type format.

Book (all formats)

If you consulted an e-book, the only additional information you must supply is the book's DOI or URL after the name of the publisher (see third example).
