1. Objective

This regulation is intended to define the procedure to be followed before taking steps to apply for donations and grants from external organizations (government, agency, corporate, foundation, etc.), other than for research, for the University in general or for one of its units.

2. Regulation

2.1 All potential projects with the view of securing donations or grants must first be submitted to the Rector (or his representative in the matter), who is responsible for the coordination of the needs of the University.

Should the Rector deem projects appropriate, he will form an advisory committee to study the projects, taking into account the needs and priorities of the University.

2.2 Once this study is complete, the Rector will submit these projects for approval to :

- the Executive Committee, if the requests are \$500,000 or less;
- the Board of Governors, if the requests are more than \$500,000.
