

Sunshine Coast Health Centre, a non-12-Step Program
(Information valid seulement en anglais)

Sunshine Coast Health Centre is a private, licensed, residential addiction treatment facility for men. Our philosophy of drug rehab and alcohol treatment is based on a non 12 step methodology, which we extended as well to our services in detox, trauma therapy, and PTSD treatment. While other programs focus on abstinence or reducing harm, they believe that the recovery process needs to move beyond mere healing. Instead, they help their clients experience personal transformation and full integration into society.
