A report produced at the request of the bp. of Evreux [Cauchon] on the state of the abbey of Lestrées. The investigations carried out both at Lestrées and at other holdings subordinate to the abbey reveal extensive deterioration which is attributed to the administration of regular abbots in the past 35 to 40 years.

The report is described as a compilation from the original "on parchment" which remains in the office of the secretary of the bishopric [of Evreux].
