Teaching Toolbox for Course Design

Dear Professors,

The *Teaching and Learning Technologies Services* provides you with educational resources that include:

  a. **concise** theoretical **explanations** in the form of **infographics**;

  b. **practical advice** that can be easily applied to your courses;

  c. "ready-to-use", tested and adaptable **examples** of **educational activities**;
  d. a **commented lesson template** to assist you in in designing or improving your courses.

Our goal is to provide you with a **toolbox** that you can use according to your needs and preferences.

Summary

Course Outcomes

1. Course outcomes:
   a. What is it?
   b. What is it for?
   c. How to proceed
   d. Examples
   e. To go further...

Structuring the course and the learning unit (lesson)

Learning Outcomes

1. The lesson Learning outcomes:
   a. Alignment with course objectives
   b. What is it?
   c. How to proceed

d. A well-formulated objective...
e. Examples
f. To go further...

Course Materials

1. Resources:
    a. General
    b. What you create...
    c. Closely guide...
    d. Online
2. Course materials for online courses
3. Present the resources
    a. PPTs
    b. Videos
    c. Interactivity 1
    d. Interactivity 2

Learning Activities

1. Learning activities:
    a. Definition
    b. Composition
2. Learning activities for...
    a. Understanding the subject matter
    b. Applying knowledge
    c. Analyze and evaluate
    d. Create and produce
4. Learning activities with *Brightspace:*
    a. Discussion
    b. Survey
    c. Groups
    d. Blog
    e. Others
5. Learning activities in a...
    a. synchronous and co-modal course
    b. hybrid and asynchronous course
